

Theme of the Annual Report

Together with Love, Together for the Future

2022-2023 was a year of hope. This year's annual report fittingly captures this joyful chapter of our journey, with the use of vibrant colours and a diverse range of graphics. To celebrate this year's theme – “Together with Love, Together for the Future” – the report features four sets of lines, each in a different colour, converging at the centre from all directions, resembling four hands clasped to form a circle and guarding the heart-shaped symbol in the middle. This symbolises the unity of people from all walks of life coming together to build a caring community. The heart at the centre consists of lines in different colours coming from different directions, along with CFSC's ten core service values, signifying our diverse services deeply embedded in the community. This reflects our active commitment to applying the service philosophy of “Person Oriented, Family Centred” to support those members of our society in need.
